EVOLUTION LAUNCHES INSTANT ROULETTE, A UNIQUE MULTI-WHEEL LIVE ROULETTE GAME

[PR] Evolution Gaming, leading provider of Live Casino solutions, has today launched its exclusive multi-wheel Instant Roulette. First unveiled at ICE 2020, Instant Roulette is another exciting addition to Evolution's extensive range of online Live Roulette variants, which includes the award-winning titles Lightning Roulette and Immersive Roulette.

In Instant Roulette, 12 individual, synchronised Auto Roulette wheels spin sequentially, with the balls dropping one after the other in the different wheels. As a consequence, players can play at a pace to suit themselves, because the key difference in Instant Roulette—aside from the number of wheels in front of the player—is that the player has unlimited betting time before deciding to hit the 'Play Now' button. When the player does bet, however, they will get a near-instant result as the wheel closest to the next drop of the ball is automatically selected as the wheel on which that bet is placed.

According to Evolution, Instant Roulette follows the standard Roulette rules but has been designed specifically to put the player in control and allow them to play at their own pace in a live environment.

Todd Haushalter, Chief Product Officer at Evolution, explained: "With Instant Roulette we really wanted to allow the player to control the pace of the game, similar to the RNG experience but with the trustworthiness of live. Each and every player can take as much time as they like setting up their bets. Then, when they are ready, they push the 'Play Now' button and boom, they are right there playing on the next available wheel!"
