

Evolution launches dedicated Live Casino environment for Rational Group's Full Tilt brand

Evolution Gaming, the world leader in video-streamed Live Dealer gaming, has launched a dedicated live casino environment for Full Tilt. Full Tilt is best known as one of the world's leading poker brands and is now expanding its offering of casino games.

The Full Tilt dedicated environment, created within Evolution's Riga studios, includes three live blackjack tables and one live roulette table. All tables will be available to players on a variety of platforms, including computers running both Windows and Macintosh operating systems, and also iOS and Android mobile devices.

The dedicated Full Tilt live casino environment is staffed by a dedicated team of over 50 dealers. The online casino area and staff uniforms will offer an experience that meets the high expectations of Full Tilt players.

Full Tilt players will also have access to a variety of Evolution's generic Live Roulette, Blackjack, Baccarat and Casino Hold'em tables and to Evolution's VIP suite of live tables.

Commenting on Full Tilt's move into offering live casino services to players, Sam Hobcraft, Director of Casino at the Rational Group, said: "Offering the best live casino has always been core to our strategy for Full Tilt and we have worked very hard with Evolution to create an environment that will be the very best product on the market. It will be offered to our customers through all channels, but we are particularly excited about the mobile product."

Sebastian Johannisson, Head of Account Management at Evolution, added: "This is a notable launch in that Full Tilt is highly committed to Live Casino as part of its offer to today's and tomorrow's multi-channel online gaming market."
